

FlexCare provides you and your family members access to a doctor 24/7/365 from your home, office or on-the-go, via the MDLIVE national network at no cost!

Get access to healthcare faster through a virtual visit with a board-certified physician who can diagnose, treat and prescribe medication, when necessary, for many acute medical conditions.

Your life is 24/7; now your doctor is too! Your virtual doctor is here.
