

Dental Plan

Your dental plan is administered by Allied and uses the Guardian DentalGuard Preferred network of dentists. You may use any dentist you wish, however, using a network dentist will require less out of your pocket for services because network dentists agree to pre-negotiated rates. Out-of-network dentists may balance bill you for amounts that exceed the Guardian contracted rates. To find in-network dentists, go to guardiananytime.com, scroll to the bottom of the page and click “Find a dental or vision provider”. Then click “PPO: DentalGuard Preferred”.

Please Note: Your dentist should verify eligibility for coverage and send claims to **Allied** at the address on your ID card.
